

St. John's member releases CD

Roger Charles, one of St. John's volunteer guitarists, is pleased to announce the upcoming release of a home-made, self-produced music CD—*Carpenter's Rest*. Selections include traditional Christian and American folk tunes, plus a sprinkling of original tunes. All are single track, acoustic guitar instrumentals, with a minimum of sound editing. The playing style is derived from that of Appalachian folk artist, Maybelle Carter. The result is a natural, "pickin' in the living room" collection.

Made for distribution to family and friends, the CD is also being offered **free** to members of St. John's, to be available around the middle of October. Copies will be kept in the Music Office at church. Sample tracks, also free, are available now at--<http://rogercharls.googlepages.com> . Although there is no charge for the CD, un-designated donations are requested—either to the Sunday collection plate or to an outreach program

of your choosing.

He is very grateful for the support, encouragement and opportunities for growth provided by the people of St. John's. May the Lord continue to bless all our efforts to live into and spread the good news of His redeeming grace.
